# How to Install the Newbie-Trader.com Better Renko into Ninja Trader

1. Start Up Your Ninja Trader Platform. If you do not have Ninja Trader you can Download a Free Trial version by clicking here.
2. From the Control Center window select the menu File > Utilities > Import Ninja Script to open the Import Ninja Script dialog window.

3. Navigate to your download folder or wherever you save the NTRenko.zip file you downloaded from our download page.
4. Highlight the NTRenko.zip file and Press the "Open" button.
5. Turn off and Restart Ninja Trader
6. Create a New Chart and you can select NTRenkoCanlde as the Type.

7. Change the Wick Color from Black to something you can see on your chart..(ie DimGray)
8. Be sure to set the Session Template setting to Default 24/7.
9. Press OK.
10. The NTRenkoCandle will now be a chart type you can use in NinjaTrader
